

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of :
Harkins et al. :
Divisional of Serial No. 09/732,357 : Group Art Unit: Not yet known
Filed: Herewith : Examiner: Not yet known
For DNA ENCODING A NOVEL RG1 POLYPEPTIDE

Honorable Commissioner of Patents and Trademarks
Washington, D.C. 20231

Sir:

TRANSMITTAL OF SEQUENCE LISTING

Applicants hereby submit a Sequence Listing and a Sequence Listing in computer readable form (as required under 37 CFR §1.821-1.825). This represents the sequence disclosure originally submitted with the parent application (Serial No. 09/732,357), but contains the sequence for rat mindin, which appeared in the original Specification, but which had not been included in the original Sequence Listing, as well as corrections required to bring the sequence listing in compliance with the requirements.

Applicants' attorney attests that the information recorded in computer readable form is identical to the written "Sequence Listing", as required under 37 CFR §1.821(f). This submission introduces no new matter, since the enclosed sequences are identical to the sequences which are present in the original patent application.

Respectfully submitted,

Wendy L. Washtien, Ph.D.
Agent for Applicants
